I AM A...

**Paediatric Occupational
Therapist**

BECAUSE...

...it is great to enable children to reach their potential and achieve, despite often complex disabilities. All children deserve a childhood and to be able to play, engage with others and their surroundings and have opportunities to take part in activities which they enjoy and gives them pleasure. Working with their families and school staff to help this to happen ensures that children and young people have the best opportunities they can, to lead active and fulfilled lives.
